## Commissioner for Patents

The reply filed on 23 October 2008 is not fully responsive to the prior Office Action because of the following omissions or matters: applicant has stated at the top of page 8 in the recent reply that the newly added subject matter to claim 12 finds support in the present specification at page 6, lines 25-29. This is incorrect. The subject matter at page 6, lines 25-29 concerns space between different fuel cells that is filled with water and not a channel between a first flexible circuit and a second flexible circuit containing deionized water as claim 12 recites. It is questioned where support for the new subject matter in claim 12 is found in the present specification? It is also unclear from the newly added language in claim 12 what element(s) contain the deionized water? Clarification of the claimed subject matter is required. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
